

Arwa Abdullah Almekhl - lecturer at Imam Mohammed Ibn Saud Islamic University in Riyadh.

The PhD in business administration at KSU offers an Accounting track which is one of the first programs in Saudi Arabia. It is an honor to be one of the first students in this program, I believe this experience will add value to both our knowledge and research skills. The professors at KSU are highly accomplished scholars, and most Saudi leaders are KSU alumni.

Personally gaining my bachelor degree from Imam University, and my master from abroad (Cardiff University in the UK), I am excited to complete my PhD in KSU as I believe will be a significant extension to my academic career.

The first semester was an excellent start, we were lucky to have two very supportive professors. The courses were also valuable in terms of theory building, research types and methods. Also we were provided with essential tools in business research and trained to use them, which to be applied in the dissertation stage.

Thank you.
